PRESS RELEASE **December 21, 2007**

Operation: "Home for the Holidays"

Today the Warren County Drug Task Force is in the process of attempting to serve sealed Grand Jury indictments from Warren, Butler, and Montgomery counties on 24 individuals that have been involved in the trafficking of marijuana, cocaine, psilocybin mushrooms, LSD, and prescription drugs for at least the past six months. Although some of the individuals have been working together to distribute drugs, this is not a single conspiracy, but rather a group of low and mid-level drug traffickers.

Although the focus of most of the investigation is in the Mason/Deerfield Township area, offenses and residences of the 24 defendants also include Lebanon, Springboro, Miamisburg, Middletown, Oregonia, and Clarksville. Some of these individuals were deliberately targeted due to significant evidence that they were supplying juveniles attending Warren County high schools.

Attached is a suspect list that includes those subjects that have been arrested, and those that are still wanted by our office, and their specific charges that include trafficking in drugs, possession of drugs, and a serious child endangerment offense associated with one of the Cultivation of Marijuana offenses. Conditions at that location were the worst ever viewed by experienced law enforcement officers that were at the scene.

Photos of the subjects will follow this email, and/or can be obtained through the Warren County Jail once they are incarcerated.
